MULTI-PURPOSE KITCHEN MACHINE M 50

A new design, the highest standards of quality and functionality fulfilled.

But what has actually changed?

Something has changed in optics:

- Closed housing – Protection class IP 65
- Redevelopment machine CI

Nothing has changed in the performance.

In function and application there are some new things:

- Stirring bowl - EASY FIX System
- Energy-saving through on/off switch
- New machine protection switch according to EU-safety standard
- Simplified operation thanks to NEW user-friendly control

Everything stays as usual in the accessories area:

The complete range of accessories from the predecessor model M30 was taken.
